

Make your next turn driving groundbreaking discoveries.

Biological sciences hold the key to our future. From the smallest cells to entire ecosystems, you can make a major impact when you earn a **Bachelor of Science in biological sciences** online from Arizona State University. Broaden your scientific understanding through new insights that can help change the world.

Discover what sets ASU apart

Program concentrations:

Biology and society.

Study the social aspects of modern biology and **explore science from a humanities perspective.**

Biomedical sciences.

Learn how to **apply biomedical concepts** in clinical, academic and industrial settings.

Conservation biology and ecology.

Develop your **understanding of the complex problems** threatening our world.

Genetic, cell and developmental biology.

Examine life science and its impact on diseases, regeneration and aging. **Launching in fall 2021.**

With the help of ASU online I have been able to build a solid foundation of knowledge in biology while maintaining a high GPA. **My experience at ASU has built confidence in myself and my grades** and I am not so worried anymore about getting accepted and being able to achieve my dreams!
