

REGIS

Online Graduate Nursing Programs

Your Passion. Our Expertise.

Regis College is proud to offer a suite of online nursing programs designed to facilitate your ascent into advanced practice nursing. Founded in 1927, Regis has a long history of educational excellence, a faculty of industry experts, and a curriculum that balances knowledge with passion.

Recognized as a leading Catholic university in Greater Boston, our values-based education is integrated with cutting-edge technology and strives to meet the needs of the ever-changing nursing profession.

Each of our programs offers an industry-focused curriculum, ensuring that students are prepared for future certification exams. Our students graduate prepared for success. In fact, 97% of the 2017 class secured employment within six months of graduating.*
